Dear Brenda:

Per our conversation of 1 June, here is the document our training people would like to use in a senior officer's development course. To make its use more practical, we would like a sanitized version that would drop the TOP SECRET/BYEMAN/COMINT controls and be downgraded to SECRET. We believe that this can be done and yet leave the text complete enough to serve our training purposes. This might be accomplished by deleting the two bracketed paragraphs on page six. In any case, if you can help us in this matter we would be most appreciative.

Sincerely,

STAT
